Choose **your** destination!

Career planning is a never ending journey. Whether you're entering the workforce or changing careers, developing a plan will help you reach your goals.

Step 1 Assess

Learn about your interests, values and skills and identify careers that may be right for you.

Step 2 Investigate

Explore your options by researching average salaries, required skills & education, job outlook and more.

Step 3 Analyze

Compare the careers on your list to evaluate which careers best match your interests and skills.

Step 4 Plan

Choose your career, set goals and plan to make them happen.

Step 5 Execute

Apply for jobs in your chosen career field or learn more about training and education that will help you get the job you want.

Don't leave your future to chance!

Make a plan to achieve your career goals.
